

How to get a handle on the toughest paint jobs.

Grab hold of an Elder & Jenks brush or roller. Because for quality, performance, durability and selection, you needn't look any further.

Since 1793, we've been making the finest painting tools in America. And we're not about to stop now.

Brushes for the Most Demanding Applications

At Elder & Jenks, we put the same handcrafted care into our brushes as you put into your painting. A full stock of natural China bristles, or custom nylon-polyester blends, to hold more paint. Push-chiseled and perfectly tipped and flagged for smooth, easy release—start to beautiful finish.

And not only can our brushes dish it out, they can take it, too. Job after gratifying job.

Rollers for All-Around Great Performance

From pickup to release to leveling to hiding. Our rollers are made of the finest woven or knitted fabrics—that won't nap out on the job. With sturdy, chrome-plated steel frames, built to last.

To find out more about paint tool construction and applications, call 800-631-3440 (in NJ 201-437-0770) for our free booklet, "What Every Painter Should Know About Brushes & Rollers." Dealer information and catalog also available.

However tough the job—from chain link fence to window sash—Elder & Jenks has a wide selection of paint tools to give you a better handle on it.
